Hope Attachment

After experiencing at first-hand how trauma can affect young people Fiona Sheikh has spent the last twelve years providing support to children, families and professionals to see these young people heal and succeed.

Testimonials

“Just a quick email to say thank you for the Attachment, Trauma and Loss training... The way it was delivered was fantastic, very easy to understand and take in. I came to the training knowing nothing; I came away with much more knowledge and understanding alongside some useful tips/strategies. I would like to thank you again and finish off with saying it was one of the best led courses I have attended.”

"It has taken our son forward and helped him get back from a difficult place. It's given us techniques and understanding that we continue to use."

"We found this very useful and it was good that we've done this training as a whole staff so everyone has the same understanding."
